User Query: 'based on the weather report provide me what to wear on this day'

Response:

Based on the weather report for Mumbai today, I recommend wearing comfortable clothes that can protect you from the smoke and heat. The temperature is 302.14 with humidity 51 and wind speed 1.54, so it's essential to wear breathable clothing that will keep you cool and comfortable. Consider wearing lightweight and light-coloured clothing, such as cotton or linen, and don't forget to carry a mask to avoid smoke inhalation. Additionally, wear comfortable shoes that are suitable for walking and exploring the city. Lastly, be aware of the local news and avoid areas with high security presence.
